The motion for oral argument is DENIED. Upon review of the claim of appeal, the order appealed from, the docketing statement, and appellant's brief and amended appellant's brief, the documents at issue were e-served upon attorney Carl Lanfear at the following address: clanfear@cardellilaw.com. This is the e-service address verified for Mr. Lanfear on the MiFile website and the e-service address listed on the motion to adjourn filed by the defendant-appellee. The Michigan State Bar's online directory lists counsel as R. Lanfear, P43967, at the same address as the attorney who has filed the motion to adjourn, and his email address is also listed as clanfear@cardellilaw.com.

Moreover, under current court policy, we would deny oral argument in any event. Appellant's brief set forth the issues raised on appeal quite clearly, and the trial court record is clear and complete. We therefore find oral argument unnecessary. See MCR 7.214(E)(1). As noted on the Court's website, the case will be submitted on the panel's case call date for this case of June 10, 2020. See https://courts.michigan.gov/Courts/COA/clerksoffice/CaseCall/CaseCall_6_2020_Detroit.pdf. As appellee is likely aware, and in accord with IOP 7.212(A)(4)-2, the clerk's office will accept appellee's late brief as long as an opinion has not been issued yet, which the panel does not intend to do until at least June 10, 2020.
